(The introduced version of this bill was prepared by the Interim Study Committee on Learner's Permits and Graduated Driver's Licenses.)

Effective Date: Upon passage; July 1, 2009.

Explanation of State Expenditures: (8) Requiring the State Board of Education (SBOE) and the Criminal Justice Institute (CJI) to adopt rules will have no fiscal impact and will be accomplished through existing rule-making procedures. The funds affected are the state General Fund for the SBOE and the MVHA for the

CJI.

(9) Making the holder of a probationary license ineligible for pretrial diversion or deferral will reduce the number of individuals in the program and have an indeterminable impact on the costs associated with the program. Denial of the pretrial diversion program likely will result in other penalties handed down to the offender, either probation, suspension, or incarceration.

Explanation of State Revenues: *Summary:* The increases in age for both the operator's license and the learner's permit will result in the shifting of revenue forward from FY 2010 to years thereafter. As a result, total revenues would be reduced by an estimated \$811,333 in FY 2010. The affected funds are described in the following table.

Fund	FY 2010 Revenue Reduction	Uses
MVHA Operator's license Learner's permit	\$7,3667 \$30,750	Construction, reconstruction, and maintenance, along with supporting the BMV, the State Police, the Dept. of Transportation, and the Department of State Revenue.
Crossroads 2000 Fund Operator's license Learner's permit	\$36,833 \$123,000	Bonding for highway projects.
Anti-Terrorism Fund Operator's license Learner's permit	\$23,021 \$76,878	Supporting the Integrated Public Safety Commission.
BMV Technology Fund Operator's license Learner's permit	\$9,208 \$30,750	Upgrading technology at the BMV.
State License Branch Fund Operator's license Learner's permit	\$115,104 \$292,125	Supporting the operation of the licenses branches throughout the state.
Total Reduction in Fees	\$811,333	

Background: This bill increases the age at which individuals become eligible for an operator's license in future years. The fee for a four-year operator's license is \$14. Annually, approximately 52,000 individuals, or about 4,333 monthly, obtain their operator's license when they are 16 years of age. Assuming that 85% of these 16-year-olds would otherwise obtain their operator's license shortly after becoming 16 years and 30 days, the five-month increase in eligibility age for operator's licenses will tend to shift these revenues forward. The increase in eligibility age would tend to shift license revenues forward by five months in FY 2010 and years thereafter. As a result, revenues would be reduced by an estimated \$257,833 in FY 2010.

This bill also increases the age at which individuals become eligible for a learner's permit. The increase in eligibility age would tend to shift learner's permit revenues forward by six months in FY 2010 and years thereafter. The fee for a learner's permit is \$9. Annually, approximately 123,000 individuals, or about 10,250 monthly, obtain their learner's permit when they are 15 years of age. The six-month increase in eligibility age

for a learner's permit will tend to shift these revenues forward. As a result, revenues would be reduced by an estimated \$553,500 in FY 2010.
